

RECORD OF EXECUTIVE DECISION TAKEN BY AN EXECUTIVE MEMBER

This form **MUST** be used to record any decision taken by the Elected Mayor or an individual Executive Member (Portfolio Holder).

The form must be completed and passed to the Chief Officer Legal and Democratic Services no later than NOON on the second working day after the day on which the decision is taken. No action may be taken to implement the decision(s) recorded on this form until 7 days have passed and the Chief Officer Legal and Democratic Services has confirmed the decision has not been called in.

1. Description of decision

To approve the moving of the school art collection into the basement of the Debenhams building and undertaking a review and valuation of the works during this process.

To instruct officers to establish a process for and undertake the disposal of the collection, using the principles of the Museum Association's Code of Ethics and toolkit for the transfer, reuse and disposal of museum collections.

2. Date of decision

6 November 2024

3. Reasons for decision

Currently the art collection is not accessible or available to the public and the costs of storing it are being borne by the Council's revenue budget. By following this process there is the opportunity for the collection to be transferred to other public bodies and/or sold to be used and displayed.

The current situation with the collection in a lock up on the school site is not sustainable and there is a risk to damage to the collection over time.

4. Alternatives considered and rejected

Do nothing – this option was rejected as the current storage is not suitable and runs the risk of damaging the collection.

Change storage only – this option was rejected as the moving of the collection provides the opportunity to carry out a review and valuation of the collection. With so many items within the collection, simply moving the storage alone would lose the opportunity to carry out a review, assess the condition and get an up-to-date valuation completed on the collection. In addition, there are no identified resources to cover the costs of ongoing storage of the collection, and this option would not address the fact that the collection is currently not used or accessible.

5. How decision is to be funded

Existing council resources.

6. Conflicts of interest

Name of all Executive members who were consulted AND declared a conflict of interest.	Nature of interest	Did Standards Committee give a dispensation for that conflict of interest? (If yes, give details and date of dispensation)	Did the Chief Executive give a dispensation for that conflict of interest? (If yes, give details and the date of the dispensation).

The Mayor has been consulted on this decision

6 November 2024

Tom Wootton

Signed *Jane Walker* Date: 6 November 2024

Name of Decision Taker: **Cllr. Jane Walker**

Portfolio Holder for Valuing Families: Children's Services

This is a public document. A copy of it must be given to the Chief Officer Legal and Democratic Services as soon as it is completed.

Date decision published:6 November 2024.....

Date decision can be implemented if not called in:15 November 2024.....

(Decision to be made exempt from call in.....NO.....)

Bedford Borough Council – Report to Portfolio Holder for Valuing Families: Children’s Services

Date of report: 6 November 2024

Report by: Director of Children’s Services

Subject: REVIEW OF BEDFORDSHIRE SCHOOL’S ART COLLECTION CURRENTLY STORED AT SCOTT PRIMARY SCHOOL

1. EXECUTIVE SUMMARY

- 1.1 The Bedfordshire Art Loan Collection was started in 1976, with the intention of bringing pupils into contact with original works of art as part of their learning experience. The collection was formed and the service supported with monies from the Bedfordshire Local Education Authority (LEA), the Eastern Arts Association (now subsumed within Arts Council England), and the Harpur Trust. Schools were able to subscribe to the service and borrow items for a period of up to one term.
- 1.2 The service was housed at a number of locations over the period from its formation to the point that the collection was moved into a commercial storage unit in Bedford town centre around 2002. Access to the collection was suspended in 2007 and the service was not available after this time. It is assumed that responsibility for the collection transferred to Bedford Borough Council at the point the County Council ceased to exist in 2009.
- 1.3 The collection was valued for insurance purposes in 2007 at c.£60,000 dependent on condition; a valuation exercise has not been undertaken since.
- 1.4 During the three to two tier conversion of 2017, Scott Lower school moved into the old Beauchamp Middle school site which meant that, until the year 4 pupils had moved through the school to year 6, there was space and the Headteacher agreed to house the collection on a temporary basis until a more permanent solution could be found. The collection was moved to Scott Primary in 2018. Head teachers in Bedford Borough were asked if they wanted to visit the school and select any items for their own schools; to date no Headteacher has visited Scott Primary to review the collection.

- 1.5 A number of items of ceramics are kept in the school art block where they are used as inspiration for pupils during art classes. A small number of pictures are on display elsewhere in the school but the majority of the collection is currently held in storage in a lock-up on site. The school has not charged for storage during this time but has requested that the collection is removed.
- 1.6 There has been little interest from wider schools to store or display the collection despite numerous communications about this.
- 1.7 In 2017, the Council put out a request to any donor to this collection to come forward should they wish to reclaim any donations, if applicable; to date there has, however, been no response to this request. Should a decision be made to dispose of the school art collection, officers will revisit these steps and invite donors, if applicable, to come forward. A process to dispose of the collection will be developed using the principles contained in the Museums Association's Code of Ethics and toolkit for ethical transfer, reuse and disposal of museum collections, whilst being clear that this is not a museum collection and, therefore, not all of the guidance can be applied.
- 1.8 There is an opportunity to move the collection into the basement of the recently purchased "Debenhams" building which presents an opportunity to improve storage and undertake a full review of the collection, including undertaking a revised valuation.
- 1.9 Whilst this school art collection is not deemed a museum collection, officers would seek to develop a process for its disposal using the principles of the Museum Association's Code of Ethics and toolkit for ethical transfer, reuse and disposal of museum collections, thereby disposing of the collection in a way that maintains public trust.

2. RECOMMENDATIONS

- 2.1 **To approve the moving of the school art collection into the basement of the Debenhams building and undertaking a review and valuation of the works during this process.**
- 2.2 **To instruct officers to establish a process for and undertake the disposal of the collection, using the principles of the Museum Association's Code of Ethics and toolkit for the transfer, reuse and disposal of museum collections.**

3. REASONS FOR RECOMMENDATIONS

- 3.1 Currently the art collection is not accessible or available to the public and the costs of storing it are being born by the council's revenue budget. By following this process there is the opportunity for the collection to be transferred to other public bodies and / or sold to be used and displayed.

- 3.2 The current situation with the collection in a lock up on the school site is not sustainable and there is a risk to damage to the collection over time.

4. THE CURRENT POSITION

- 4.1 The Bedfordshire School Art Collection has not been on display since 2007. Despite requests to schools to come and display the collection and for any donors (if applicable) to retrieve anything they have donated, these offers have not been taken up.
- 4.2 The collection is currently at risk of being damaged in its current storage.
- 4.3 There are interested members of the public who would like to see these pieces taken out of storage and displayed or sold so that they can be re-used. There is growing public interest in the council taking action and disposing of the collection.

5. DETAILS

Background

- 5.1. The Bedfordshire Art Loan Collection was started in 1976, with the intention of bringing pupils into contact with original works of art as part of their learning experience. The collection was formed and the service supported with monies from Bedfordshire LEA, the Eastern Arts Association (now subsumed within Arts Council England), and the Harpur Trust.
- 5.2. Schools were able to subscribe to the service and borrow items for a period of up to one term. The service was housed at a number of locations over the period from its formation to the point that the collection was moved into a commercial storage unit in Bedford town centre around 2002. Access to the collection was suspended in 2007 and the service was not available after this time. It is assumed that responsibility for the collection transferred to Bedford Borough Council at the point the County Council ceased to exist in 2009.

Content of the Art Loan Collection

- 5.3. The collection grew from its formation in 1976 to include over 1,400 items, including paintings, artists' original prints, ceramics, glass, textiles, wood and metal artefacts. It is believed that the majority of items were purchased, but it is not known for certain whether items were also donated and, if so, on what basis donations were made and what records are available regarding title of ownership.

- 5.4. The collection was valued for insurance purposes in 2007 at c.£60,000. Dependent on condition this may have increased in the intervening period. Although a valuation exercise has not been undertaken since, it is believed that the collection includes items of studio pottery and artists' original prints and paintings that may be valued in the low thousands, as well as a large amount of items likely to be of nominal value.

Current Status

- 5.5. It was determined in 2017 that the collection should be moved from the commercial storage location that had housed it since 2007 to an alternative location, because of the annual storage costs.
- 5.6. During the three to two tier conversion of 2017, as part of its growth to become a primary school, the then Scott Lower school moved into the old Beauchamp Middle school site which meant that until the year 4 pupils had moved through the school to year 6 there was a great deal of empty space. The Headteacher was asked to house the collection on a temporary basis until a more permanent solution could be found and the collection was moved there in early 2018.
- 5.7. An inventory of the collection was created at the point it was moved to Scott Primary School in 2018 (see Appendix A). Items in grey on the inventory were known to be part of the original collection, based on a catalogue produced when the service was operational, but were not seen when the collection was moved. Records are not available of items which may have been disposed of historically or not returned from schools prior to the closure of the service. A number of broken or damaged items were also noted during the creation of the inventory, which is not surprising given the nature of the collection's use by pupils and its transport to and from schools.
- 5.8. The collection has remained at Scott Primary since 2018 although the inventory has not been checked or updated since this time. It is believed that head teachers in Bedford Borough were written to and asked if they wanted to visit the school and select any items for their own schools. It can be confirmed that to date no Headteacher has visited Scott Primary to review the collection.
- 5.9. A number of items of ceramics are kept in the school art block where they are used as inspiration for pupils during art classes. A small number of pictures are on display elsewhere in the school, but the majority of the collection is currently held in storage in a lock-up on site. The school has not charged for storage during this time but has requested that the collection is removed.

Disposal Process

- 5.10. The Museums Association has a recognised Code of Ethics and a toolkit for the ethical transfer, reuse and disposal of museum collections. The Art Loan Collection is not a museum collection and The Higgins Bedford does not have responsibility for it, however the toolkit and the underlying principles provides an appropriate framework for establishing a process for the disposal of the Collection in a way that would seek to maintain public trust and is within the Council's Financial Procedure rules.

6. ALTERNATIVES CONSIDERED AND REJECTED

- 6.1 Do nothing – this option was rejected as the current storage is not suitable and runs the risk of damaging the collection.
- 6.2 Change storage only – this option was rejected as the moving of the collection provides the opportunity to carry out a review and valuation of the collection. With so many items within the collection, simply moving the storage alone would lose the opportunity to carry out a review, assess the condition and get an up-to-date valuation completed on the collection. In addition, there are no identified resources to cover the costs of ongoing storage of the collection, and this option would not address the fact that the collection is currently not used or accessible.

7. KEY IMPLICATIONS

7.1 Legal Issues	<p>Legal advice has been sought on this matter from the Council's Legal Service. Legal Services have been unable to identify any documentation regarding the ownership of the collection or its stewardship. In the absence of any evidence to the contrary and in view of the length of time for which the Council has held the collection, it is reasonable to conclude that the Council owns the items whether through purchase or process of law and, therefore, is entitled to dispose of them as it sees fit.</p> <p>It should be noted that Legal Services have not consulted with any other body which may have a claim to the collection or the proceeds of any sale, and therefore cannot rule out a risk of such a claim being made in the future. However, it is considered unlikely that any such claim would succeed.</p>
-------------------------	---

7.2 Policy Issues	<p>The Museums Association code of ethics and toolkit for the transfer, reuse and disposal of museum collections can be used to establish a process for the ethical disposal of the Art Loan Collection in a way that is open and transparent and does not impact on public trust, while recognising that this is not a museum collection. A core principle of this is that disposal should not be undertaken principally for financial reasons. Establishing a process based on the ethical guidelines and toolkit is likely to involve reviewing the potential for transferring any items in the collection to another public organisation within the public domain where there can be public access, where this is suitable or possible.</p> <p>The Council's Constitution sets out the requirements for disposal of Council Assets under Part 12 Financial Procedure Rules.</p>
7.3 Resource Issues	<p>The ongoing storage and maintenance of the collection brings resource implications where there is no current identified budget. If there is a decision to dispose of any items from the collection by sale, it will be necessary to review the use of proceeds from sale in terms of how they are reinvested in Council services.</p>
7.4 Risks	<p>Decisions to sell significant public assets can influence public perception of the council's stewardship and governance.</p>
7.5 Environmental Implications	<p>The ongoing storage and maintenance of the schools art collection requires electricity and heating. The recommendation within this report will result in less of an environmental impact than the ongoing storage of the collection.</p>
7.6 Equalities Impact	<p>As the artwork is not currently on display anywhere, the actions recommended in this report are not depriving the local community from something they already have and an initial screening for the Equalities Impact Assessment has found that there will be no adverse impact on equality. This will, however, continue to be reviewed as the process goes on and a full EIA will be undertaken should anything change.</p>

7.7 Impact on Families	The recommendation contained within this report will not have an impact on families. If following full review of the collection there is a decision to dispose of any items from the collection by sale, it will be necessary to review the use of proceeds from sale in terms of how they are reinvested in Council services, which may in turn support families.
7.8 Community Safety and Resilience	The actions within this report do not have any impact on community safety and resilience.
7.9 Impact on Health and Wellbeing	The actions within this report do not have any impact on health and wellbeing.

8. SUMMARY OF CONSULTATIONS AND OUTCOME

8.1 The following Council units or Officers and/or other organisations have been consulted in preparing this report:

Portfolio Holder for Valuing Families, Children's Services
Legal Services
Finance Team
Environment Services
Manager for Culture and Heritage
Head of School Improvement
Headteacher of Scott Primary School

9. WARD COUNCILLOR VIEWS

Not applicable for this report.
